Summary

Results-oriented Mobile Software Engineer with experience since 2022 building scalable Flutter applications from concept to Google Play deployment. Unique blend of frontend expertise and strong backend integration skills, including REST APIs and PL/SQL, backed by a degree in Artificial Intelligence. Proven track record of delivering high-performing e-commerce and educational apps exceeding 1,000 downloads each. Passionate about leveraging clean architecture to enhance user experience, optimize app stability, and drive effective monetization.

Education

Damascus University | Bachelor's Degree *Damascus, Syria | 2019 - 2025*
Information Technology (Artificial Intelligence); **Graduation Project:** RAG-based HR CV analysis system (score: 90)

Work experience

East Med | *Flutter Developer (On-site)* *Damascus, Syria | 09. 2024 - Current*

- Develop Flutter mobile applications with REST API integration and backend endpoint preparation
- Implement PL/SQL logic to support backend data operations and mobile system workflows

Learn For You | *Flutter Developer | Remote* *Daraa, Syria | 08.2024 - 05.2025*

- Contributed to multiple Flutter applications including e-commerce and educational platforms with 1,000+ downloads
- Enhanced UI/UX, application performance, and monetization outcomes through targeted design improvements and ad integration

Freelance Flutter Developer | *Self-Employed* *Damascus, Syria | 01.2023 - Current*

- Delivered multiple production-ready Flutter applications from initial concept to release for clients across diverse domains
- Managed the full mobile development lifecycle including architecture design, UI implementation, backend integration, testing, and deployment
- Collaborated with remote teams and individual clients to meet delivery timelines while maintaining quality and functional requirements

Volunteer & Open-Source Experience

Itqan Community | *Flutter Developer | Open-Source Contributor*

- Contributed to a Flutter-based open-source project (Mushaf Imad), improving features and overall application performance.
- Resolved GitHub issues and enhanced code quality through structured refactoring and best practices.
- Applied unit testing and widget testing in Flutter to validate functionality and ensure UI stability.
- Collaborated using Git workflows, including branching strategies, pull requests, and code reviews.

Unblock Syria | *Volunteer*

- Monitored and documented restricted digital services and websites in Syria, contributing to publicly accessible transparency reports
- Coordinated communication with international companies to support sanction lifting efforts and improve service accessibility.

Technical skills

Flutter & Dart — Production apps, Google Play publishing, Cross-platform development.
State Management — BLoC/Cubit, Riverpod, Provider.
Architecture — Clean Architecture, OOP, SOLID Principles.
Backend & APIs — RESTful APIs, Oracle SQL, PL/SQL (Procedures & Business Logic).
Testing — Unit Testing, Widget Testing, Integration Testing.
Firebase — Authentication, Firestore, Cloud Messaging.
Third-party Integrations — Google Sign-In, Google Maps API, Tap Payments, AdMob.
Storage & Security — Hive, sqflite, Local Storage, Secure Storage, Data Encryption.
UI/UX & Optimization — Responsive UI/UX Design & Redesign, Performance Optimization, App Stability.
AI/ML — NLP, RAG Systems, Computer Vision, Intelligent Search Algorithms.

Projects

Internal Mobile App: <i>Flutter Developer (East Med)</i>	2025 – Present
Enterprise Flutter apps (pre-release). REST API integration, backend preparation, PL/SQL support.	
SKY Store: <i>Flutter Developer (Learn For You)</i>	2025
E-commerce mobile app converted from WordPress. Launched on Google Play; achieved 1,000+ downloads.	
Bankid.SY: <i>Freelance Flutter Developer</i>	2025
Security-focused mobile application. Implemented encryption, secure local storage, and safer backend communication.	
Easy Dutch: <i>Flutter Developer (Learn For You)</i>	2024
Language learning application. Improved UX, redesigned UI, integrated ads; surpassed 1,000 downloads.	
VIP Organ Sets / Organ Sets 2024: <i>Flutter Developer</i>	2024
UI and performance optimization projects. Improved stability, performance, and visual quality.	
CarX: <i>Freelance Flutter Developer</i>	2024
Full automotive service platform featuring AI-driven maintenance suggestions (TensorFlow Lite), Google Maps integration, and secure Stripe payments.	
Tafadal: <i>Flutter Developer (Logic Code)</i>	2023
Tourist taxi booking application. Implemented booking flows, real-time interactions, and on-demand features.	
Loujen: <i>Flutter Developer (Logic Code)</i>	2023
UI-focused enhancement project. Redesigned UI to improve usability, consistency, and visual clarity.	
Tekrum / Tekrum Partner: <i>Freelance Flutter Developer</i>	2023
Built two Flutter apps from scratch for local services. Handled full lifecycle development, testing, and Google Play publishing.	

Professional Development & Certificates

The Complete 2022 Flutter & Dart Development Course	Udemy 2021
The Complete Flutter Development Bootcamp with Dart	Udemy 2021
Oracle SQL & APEX Training (80 Hours)	EastMed Company 8.2024 – 9.2024
AI & Machine Learning Training Program	SHAI (AI Club) 2024
ICPC Collegiate Programming Contest	Damascus University 2021

Soft skills

Analytical problem-solving • End-to-end ownership • Freelance project leadership • Cross-functional collaboration (remote & on-site) • High-performance under tight deadlines • Continuous learning & adaptability.
